About

Hope Horizon School for Giftedness is a pioneering institution that is devoted to excellence in progressive teaching, learning, and research.

The school is committed to developing well-rounded leaders across various disciplines who will make a positive impact globally.

Hope Horizon's progressive approach to education is centered around the needs and talents of each individual student.

Hope Horizon is recognized by the Department of Education of the Philippines with the Government's Recognition No. K-008, s. 2023 (Kindergarten) and No. E-009, s. 2023 (Elementary)

*A school for
progressive learning,
discovery, innovation
and creative expression*

The school employs dynamic teaching strategies tailored to different learning styles, fostering critical thinking, problem-solving, and creativity.

Students are encouraged to actively participate in their learning through hands-on activities and projects, rather than passive absorption of information.

Background

Following her graduation from the University of the Philippines Diliman in 2010, Teacher Jenny gained teaching experience in various private schools in Quezon City and Rizal Province. After several years, she aspired to contribute to her community in Bulacan by providing high-quality and progressive education to learners of all types.

With a humble beginning of only seven students, she established Hope Horizon and successfully expanded it to accommodate hundreds of students with diverse backgrounds and learning abilities. Today, Hope Horizon is recognized as a pioneering and exemplary institution for progressive education in Bulacan.

Progressive Education

Approach to Learning

In progressive education, the focus is on learning by doing and experiential learning. Students are encouraged to explore and discover concepts through hands-on activities and projects. In traditional education, the focus is on the transmission of knowledge from teacher to student through lectures and textbooks.

Curriculum

In progressive education, the curriculum is often more flexible and student-centered, with a focus on developing critical thinking skills and creativity. Traditional education typically follows a set curriculum that is based on a standard set of subjects.

Teacher-Student Relationship

In progressive education, the teacher acts more as a facilitator or guide, while in traditional education, the teacher is the primary source of knowledge and authority.

Classroom Environment

In progressive education, the classroom environment is often more collaborative and less hierarchical, with an emphasis on group work and discussion. In traditional education, the classroom is typically more structured and teacher-led.

Overall, progressive education is focused on providing a more student-centered and hands-on approach to learning, while traditional education is more focused on a teacher-centered approach.

**If a child can't
learn the way we
teach, maybe we
should teach the
way they learn.**

Integrated Class

Now, everyone can learn beyond physical classrooms.

The Online Integrated Class at Hope Horizon is a top-of-the-class online learning program designed for modern learners and collaborative parents who want to thrive in this changing world.

Why choose Hope Horizon Online Integrated Class?

- ✔ We are a Progressive School. In our online classroom settings, students are actively engaged participants in the learning process, rather than passive observers.
- ✔ With such small class sizes, our educators are able to deeply understand the unique learning styles, strengths, and needs of every student.
- ✔ We love to innovate, challenge the status quo, improve traditions, and have fun in the process of learning.

Key Features

Personalized Learning

Our classroom sizes average 10 -12 students. Each student is in the front-row seat of every lesson fostering a dynamic and supportive learning environment. Small class sizes also enable our educators to understand the learning style and unique needs of every student.

Progressive Education

Our approach utilizes integrated curricula, enabling students to explore concepts and content from various perspectives, enhancing their conceptual understanding of the subject.

Qualified Educators

Our educators are trained professionals and experts in their respective fields, dedicated to fostering your kid's intellectual curiosity. Beyond merely imparting knowledge, they play a vital role in inspiring, guiding, and mentoring you to realize your full potential.

Flexibility

You can join live classes, rescheduled classes or view recorded sessions at your convenience. Education should be flexible and accessible, free from the constraints of time and place.

How Does It Work?

Our online class program is designed to provide a comprehensive and interactive learning experience for students, combining the flexibility of online education with the engagement of face-to-face interactions. Here's how it works:

1. Assessment and Placement: Each student will undergo an initial assessment to determine their current academic level. Based on the results, students will be placed in the appropriate grade level to ensure they receive the most suitable instruction for their needs and abilities.

2. Hybrid Learning Environment: Students will primarily attend classes online, allowing them to learn from the comfort of their homes. Additionally, they will be integrated into small, face-to-face classes alongside other online students. This hybrid approach ensures that students benefit from both online and in-person interactions, fostering a more dynamic and engaging learning environment.

How Does It Work?

3. Enhanced Engagement: The unique composition of our classes, combining online and face-to-face elements, is designed to enhance student engagement. Online students have the opportunity to participate in select face-to-face events and activities, provided they can attend. This flexibility encourages greater involvement and a sense of community among all students.

4. Structured Schedule: Our classes run every weekday, from Monday to Friday, ensuring a consistent and structured learning routine. Each class is facilitated by two teachers, providing ample support and attention to each student. This dual-teacher model allows for a more personalized and responsive educational experience.

Schedule: Monday to Friday

Duration: 2:00 ~ 4:00 Hours

Teacher-Student Ratio: 2:10

Grade Level: Grade 3 to Grade 10 only

Required Gadget: Laptop / Desktop / iPad

Expectation from Guardians

By following this guide, you can help create a conducive and supportive environment for your child's success in our online class program.

Creating an Ideal Learning Environment:

- **Dedicated Study Space:** Set up a specific area for learning that is free from distractions. Ensure this space includes a desk or table, good lighting, and a comfortable chair.
- **Minimize Disruptions:** Keep the learning environment quiet and organized to help your child focus better on their studies.

Preparation and Routine:

- **Set Up Gadgets:** Assist your child in preparing their gadgets and study materials before each class. This helps them establish a routine and become self-sufficient over time.
- **Stable Power and Internet:** Ensure that there is a stable power supply and a reliable internet connection to avoid disruptions during online classes.

Expectation from Guardians

By following this guide, you can help create a conducive and supportive environment for your child's success in our online class program.

Collaboration & Communication:

- **Stay Connected:** Communicate regularly with teachers and the school through our official communication platform. This helps you stay updated on your child's progress and any important announcements.
- **Collaboration:** Foster a positive and collaborative attitude towards online learning. Your support and encouragement can greatly enhance your child's educational experience.

Balanced Schedule:

- **Scheduled Breaks:** Plan regular breaks for your child, making sure to avoid the use of electronics during these times. Encourage physical activities, snacks, or relaxation to recharge.
- **Flexibility in Learning:** Remember that online education offers more flexibility compared to traditional schooling. Embrace this freedom and adjust expectations accordingly.

**The future of
learning is
collaborative.**

What Parents Are Saying

Their passion for teaching these kids is indispensable, as is their patience, flexibility, and creativity in handling the challenges of dealing with my son. It brings great comfort to us to know that our children are being loved and cared for in school.

Mommy Elaine

Thank you teachers for molding young minds and guiding my son on his educational journey. Your dedication and support have played a vital role in his graduation success. We are forever grateful for your hard work and commitment!

Mommy Clarizze

Your teaching strategy guidance, effort, care, and love have been incredibly helpful to our dear daughter's journey. She feels supported and encouraged to reach her full potential.

Mommy Cath

The teachers in this school are amazing! They work really hard to help all their students succeed. I definitely recommend this school because each teacher is fantastic and very easy to talk to.

Daddy Mike
